

## 7-3-3 Public Location

The Fauquier Amateur Radio Association held their ARRL Field Day at Crockett Park in Midland VA. This is one of very few public parks in Fauquier County with a lake with boats and fishing, hiking trails and other amenities that made for some walk in traffic wondering what we were doing.

Below is a Google image of the park entrance with our 300m circle shown. The labels represent the station locations.

John Huggins and Kyle Fox assert we did operate in a public location.
