

7-3-4 Public Information Table

Our club not only had an information table, we had an entire guest shelter where our many guests learned more about us and our club. Of particular focus were our upcoming 440 repeater project (the duplexer), hiking activities and other activities of our club, MARS operations, APRS operation and other EmComm projects.

Figure 1 shows Mark, KD6AKC, explaining some of FARA's activities and projects to our invited guest in our visitor shelter. Public information was a big focus for us.

Figure 1: Mark explaining FARA's highlights to our EmComm visitor in our comfy guest shelter.

We assert we qualify for the public information bonus.

John Huggins and Kyle Fox
